Professional Summary

Results-driven **.NET Software Engineer** with **3+ years of hands-on experience** in building, optimizing, and maintaining enterprise-grade web applications. Currently working on **TruckSuvidha**, a large-scale logistics and transport management platform. Strong expertise in **C#, ASP.NET , LINQ, SQL Server, PostgreSQL, JavaScript, jQuery**, and RESTful APIs. Known for taking ownership of modules, improving system performance, and delivering production-ready solutions.

Professional Experience

Sarvodaya Infotech Pvt Ltd **Jan 2023 – Present**
Software Engineer – .NET *India*

- Core backend contributor to **TruckSuvidha**, a live logistics and fleet management platform.
- Designed, developed, and maintained scalable backend modules using **C#, ASP.NET, and LINQ**.
- Led implementation of critical business workflows including vehicle, driver, and document management.
- Optimized complex queries and database structures using **SQL Server and PostgreSQL**, improving response times.
- Built and consumed **RESTful APIs** to enable seamless frontend-backend communication.
- Enhanced user-facing features using **JavaScript and jQuery**.
- Owned production bug fixes, performance tuning, and deployment support.
- Actively used **SVN** for version control and collaborated with cross-functional teams in an agile setup.

Projects

TruckSuvidha (Live Logistics Platform) **2023 – Present**
.NET, ASP.NET, C#, LINQ, SQL Server, PostgreSQL, JavaScript, jQuery

- Enterprise-level logistics and transport management system used for vehicle and fleet operations.
- Developed and maintained backend modules using **C#, ASP.NET Core, and LINQ**.
- Designed and optimized database queries using **SQL Server and PostgreSQL**.
- Implemented RESTful APIs for vehicle, driver, and document management workflows.
- Enhanced UI interactions using **JavaScript and jQuery**.
- Handled production bug fixes, performance tuning, and deployment support.

Tagjee (Web Application) **2023-present**
.NET, ASP.NET, C#, SQL Server, HTML, CSS, JavaScript

- Developed a web-based application for managing tagged content and user-driven workflows.
- Built server-side logic using **ASP.NET MVC and C#**.
- Designed relational database schemas and optimized queries using **SQL Server**.
- Implemented role-based access and secure data handling.
- Worked closely with frontend components using HTML, CSS, and JavaScript.

Education

Greater Noida Institute of Technology (GNIOT), AKTU **2017 – 2021**
Bachelor of Technology – Electronics and Communication Engineering *Greater Noida*

Board of High School and Intermediate Education, U.P. **2016**
Intermediate

Board of High School and Intermediate Education, U.P. **2014**
High School

Technical Skills

Programming Languages: C#, JavaScript
Backend Technologies: ASP.NET MVC, ASP.NET Core, LINQ, Entity Framework
Web Technologies: HTML, CSS, JavaScript, jQuery, Bootstrap
API Development: RESTful APIs
Databases: SQL Server, PostgreSQL
Version Control: SVN
